THE ILLINOIS CENTRAL RAILROAD COMPANY
IS NOW PREPARED TO SELL EVER TWO MILLPONS OF ACRES
OF SELECTED

PRAIRIE, FARM AND WOOD LANDS,
IN TRACTS OF 40 ACRES AND UPWARD.
To seit purchasers, on long credits and at low rates of interest.
They were granted by the Government to encourage the feelingth of this Railroad, which runs from the extreme worth to the extreme wouth of the State of Ithinsts. It passes, from end to end, through the richest and most fertile Prairies of the State, dotted here and there with magnificent Oak Groves. The recent opening of nearly feel mines of this road throws open the lands for cultivation. They are scattered from one to lifteen miles on each side of it, through it sentire length.

The soil is a dark rich mold, from one to five feet in depth, is gently rolling, and peculiarly fit ed for graining cattle and sheep, and the cultivation of wheat, It dian corn, i.e.

The first crop of Indian corn planted on the newly broken prairie osually pays the cost of plowing and sometimes feacing. Wheat sown on new turnedsoid is sure to yield very large crofits. One man with a plow and two yake of orea will break one and a half to two acros per day. Contracts can be made for broaking, ready for corn or wheat, at \$2 to \$25 per acrs. By indicious management farms may be broken and fenced the first, and under a high state of cultivation the second wear.

The larger yield on the chean lands of filinots, over high-priced lands in the Fastern and Middle States, is known to be much more tean sufficient to pay the difference of transportation to the Eastern market. The rapid increase and growth of flourishing towns and villages slong the line of this road afford a grow-long home demand for form produce.

Coal and wood are delivered along the road at different points, at from \$1.9 to \$4 the cord or un.

Parties below the acres of the contraction, they the PRAIRIE, FARM AND WOOD LANDS,

By the 22d section of the Act of the Legislature, approved MR. February, 1851, these lands are tree from transition usual they are paid for and a doed of conveyance granted to the purchaser.

INTEREST WILL BE CHARGED AT ONLY TWO PER CEST FER ANNUM.

As a security for the performance of the contract, the first two years' interest must be paid in advance, but it must be understood that ene-tenth of the land purchased analy scarly be brought under cultivation. Longer credits at six per cent per amount may be negotiated by aprelai application. Twenty per amount may be negotiated by aprelai application. Twenty per cent from the credit price will be deducated for cash, in which case the Company's Construction bonds will be received and cash. It is beserved that the price, long credit, and low rates of latterest charged for these lands, will enable a mass with a few bundred dollars in each, and ordinary industry, to make himself independent before all the purchase money becomes due. Meantume the rapid settlement of the country will provably have increased their value four or five fold. When required an experienced person will accompany spilicants to give information and aid in selecting lands.

Large Flats, showing the precise location of the lands throughout the State, may be seen at the office. Small pocket Plats, as guide to any part of the company's lands, and Pambe ets, containing interesting information, accompany had, and Pambe ets, containing interesting information, accompany by numerous letters from respectable farmers throughout the State, may be had on application at the effice of the Company. No 52 Michigan. V. Chicago. CHARLES M. DU PUY, Jr., Land Agent Hilmols Central Rallroad Company.
